

Placement Cell AI Use Policy

AI Risk Tier Classification

AI résumé editing — Limited

AI mock interviews — Minimal

AI-written essays — High-risk

AI-coded GitHub projects — High-risk

AI in graded assignments — Limited

AI-generated CGPA — Unacceptable

AI-cloned voice — Unacceptable

AI skills self-assessment — Minimal

Permitted Uses

1. AI may be used to improve résumé grammar and clarity.
2. AI may be used for mock interview practice.
3. AI may be used to explain technical concepts.
4. AI may be used to create placement-preparation study plans.
5. AI may be used to review student-written code.

Prohibited Uses

1. AI may NOT be used to fabricate projects or experience.
Detection: Oral project defence.
2. AI may NOT be used to alter CGPA, marks, or transcripts.
Detection: Verification with official records.
3. AI may NOT be used to clone voices or create deepfake interview content.
Detection: Recruiter verification and live interview checks.

Enforcement

The placement cell may conduct random audits and oral defences of projects. Violations may result in warnings or suspension of placement-cell support. The placement cell recognizes that not all AI misuse can be detected and therefore relies partly on student integrity.
